## NETWORK ENGINEER

Bahrain | [ebrahimabdulmoamen@gmail.com](mailto:ebrahimabdulmoamen@gmail.com) | [34455267](tel:34455267) | [LinkedIn](#)

### PROFILE

Fresh graduate holding a Bachelor of Science in Network Engineering with hands-on experience in routing, switching, and network security. Studied **CCNA**-level concepts, including LAN/WAN design, IP addressing, VLANs, and routing protocols (OSPF, EIGRP). Skilled in Cisco technologies, network troubleshooting, and Zero Trust security models. Seeking to contribute to a professional IT or Network Operations Center team to enhance infrastructure performance and reliability.

### INTERNSHIP

#### IT Support Intern, Training Plus Institute

Jul 2024 — Sept 2024

- Provided help desk support for employees, assisting with software and hardware issues.
- Repaired, configured, and maintained damaged or malfunctioning PCs.
- Installed and updated operating systems and essential applications.

### EDUCATION

#### University of Bahrain

Sept 2020 — Dec 2025

Bachelor of Science in Network Engineering

### TECHNICAL SKILLS

Troubleshooting Skills  
Cloud

Linux  
Wireshark

Windows Server  
Routing and Switching

Python  
Packet Tracer

### PROJECTS

#### Senior Project

Sept 2025 — Dec 2025

University of Bahrain

#### CryptaCloud - Zero Trust Encrypted & Searchable Cloud Storage App

**Technology:** Python · Firebase/Google Cloud Storage · AES-GCM · Argon2id · SQLite

- The project focuses on enhancing cloud security by implementing a Zero-Trust architecture with searchable encryption. A key feature of the solution is that users can upload and download their files without the cloud provider ever knowing what is stored, ensuring complete data privacy.
